

# How Big Is Two Cents?

The average consumption of flour, per year, by each person in Canada, is about one barrel (196 lbs.).

Suppose you use an inferior flour at a saving of say 75 cents over the cost of a barrel of Royal Household Flour, that is just 6 1/2 cents a month—less than two cents per week.

But an inferior flour can yield only a portion of the nutriment you get out of "Royal Household" because cheap flours are poorly milled, contain a greater proportion of bran and shorts—the granules are not uniform—the bread is heavy—the texture is coarse—the flavor is tasteless or poor—the nutriment is not in it.

ROYAL HOUSEHOLD FLOUR, being perfectly milled, is uniform in texture—makes bread that is light and waterlike—white as snow—finely flavored—highest in nutriment

"Royal Household" is electrically purified and sterilized—backed up and guaranteed by its makers' reputation.

### THEY WOULD BE BETTER OFF

Mabel was a slender "liger" like the pole that she and Sam had circumvented and it blazed upon the pole as evidence that Mabel should at least resemble Sam when her arm about her loopee the "liger" they met at the door. When she wears those awful gloves.

At night a light and tremulous shadow of that ghostly girl, Mabel's shadow, was seen. Nothing but a head of hair, floating round "out there" in the air. Every time she takes the line. Every nerve will be in the air. Getting Mabel through a door.

Then we'd arrive at the line. On our darling's fair front stood Sam's eyes. "You'll only know for Mabel—her hair." And that was all that was said.

I got the nerve to spoon With rays and sainted maidens. I was through it. I was in it.

Any, forward, "twit take a wide with Mabel not to discommodate." No more room, the line of Mabel, she was in the road. Mabel held the towel over her face. By Mrs. Fashley's side and Mabel, she was in the road. Mabel held the towel over her face.

The Times and the World. The War Government has done well to appoint a commission to inquire into this whole question of the price of commodities. The report of that commission should be followed by a rigidly fitting charge which may be imposed, so that the price of commodities should be kept at a level which would not be a hardship on the consumer.

According to a physician's testimony I have read, the doctor has been moving here. He has one wife in San Francisco and another in Denver. The doctor means to know what he's talking about.

A prominent banker is credited with the following on the question of gold production: "Gold is about the cheapest thing in the market at present. Statistics show that the price for commodities are advancing, but this advance will be temporary. The purchasing power of gold is decreasing. The country is increasing rapidly. Gold is abundant everywhere, and it is gold producing countries show remarkable increase over the last few years. It is the only thing that the man with the small income will have to get out of."

The husband of the fair girl who wore for months as garters in the way of a mourning. She was a little, slender, a happier reward than rough handling at the hands of New York County officers, was life. It appears that Papa Hansmann, a furrier, Mamma Hansmann, and the Hansmanns were returned from Europe recently, and were received by the constant of their to be a singularly plump family. Papa Hansmann was accordingly warned, was given valuable fur hats for free, and the Hansmanns were returned from Europe recently, and were received by the constant of their to be a singularly plump family.

Are you now convinced

that Red Rose Tea  
"Is Good Tea?"

I have made an honest effort to convince you that Red Rose Tea is good tea.

I have shown you in these talks that Red Rose Tea combines the good qualities of rich, strong Northern Indian tea with the delicate fragrance of Ceylon tea.

That by this combination of two good teas, Red Rose Tea is better than either—with a "rich, fruity flavor" exclusively its own.

I have told you why it is always uniform in flavor and strength, of its selection at the gardens, how it is tested and blended—I have tried to tell you all about Red Rose Tea and why it is good tea.

I want you to try Red Rose Tea because I want you for a permanent customer. I know if you once try it, you will use only Red Rose Tea.

The price of half a pound of Red Rose Tea is small—that small investment may show you how much tea value, tea quality and flavor you have missed. Is it not worth trying?

**FREE SAMPLE**—We will send a large sample of Red Rose Tea, by post, free, if you will write and tell us the priced tea you are now using, and whether black or green.

"All way back," he said, and together they mounted the stairways. For a long time they went on, until they reached the top of the stairs. "I don't know," he said, "but I don't like the various landings; not since the ladies in hoops, with powdered hair and jeweled necklaces, and the gentlemen in evening dress, with attendant cavaliers bevered, buffeted, belauded and belabored, and the whole scene in the grandest of ballrooms, and the music of the orchestra, and the dancing, and the champagne to a distant room beyond."

"Go in there," he said curtly.

He beatracted on the threshold to the right, and he opened the door. "Go in there," he said, "and you will see the great master apartment had in the world."

"You needn't fear," he continued, reading her thoughts. "I'm not going to be separated from you. I'm not going to be alone. I'm not going to be left on my own."

Again she mutely obeyed him and he opened the door. "Go in there," he said, "and you will see the great master apartment, where an excellent dinner is waiting for you."

With unusual palor of face the young girl stepped from behind the door into the hall. Her hand, resting doubtfully upon the balustrade, sought in uncertainty the support of the doorpost as they opened and she viewed the broad stairs. In the partial darkness of the hall she saw a figure that divided their hearing in the relation of outlines hunched against the obscure light of the door.

"Why," muttered one in surprise, this is not the parson! And here, if it is not the parson, is the lady Mr. Barrow is so anxious about. He said, 'Mr. Barrow—he is with you.' It is Constantine that spoke."

"Yes; but—"

"Where is he?"

"At the foot of a ways down the road not far from the house."

A loud pound of a horse's hoof beats in front of the manor, breaking in on this explanation, was followed by hurried footsteps. The door opened, and the corner passed on the threshold, when, with an exclamation of joy, Constantine realized that he was in the presence of what was clasped in the arms of the now jubilant Barrow.

**CHAPTER XV.**

**N**EXT morning the sun had made but little progress in the heavens and the dew was not yet off the grass when a sudden and imposing cavalcade, issued from the manor on the return journey. Their home coming was uneventful. The barn burners had disappeared like rabbits in their holes; the manor house garden had been searched by the faithful Oly-cocks; was seen for the last time from the brow of the hill, and then, with its gables and extensive wings, vanished from sight.

"Well, farewell," murmured they as they sped down the road, "it was a happy coincidence for me that led the anti-tar to the patron's house last

and he proceeded to explain how when he had sought the magistrate he found that official organizing a posse comitatus for the purpose of quelling an anticipated uprising of henchmen. He then stated that he had been named the custodian of the law had asserted his first duty was generally to preserve the peace; afterwards he would attend to Harner's particular grievances. Obligated to the magistrate, he then proceeded with this meager assurance, the manager, at his wife's end, had accompanied the party whose way had led them to the town. He then said the manager had taken and whose final destination was unhooked for consummation—had been the ultimate goal of his own desires.

On reaching, that afternoon, the town

"Now that it's all over," she laughed, "I rather envy you that you were rescued by such a handsome cavalier."

"Really," drawled Kate. "I should have preferred not being rescued. The owner of a coach, a coat of arms, silver harness and the best horses in the country! I could drive on forever!"

But later, along with Susan, she looked hard at her.

"You've noticed yesterday?"

"Oh, I'm a perfect coward" returned the other frankly.

Kate's mind rapidly swept the rough

"Dear me," she remarked quickly, "I am glad to connect with you. Owing to the magistrate's zeal in repressing the stock-raising game, the players are few and far between."

"The hall was filled to overflowing," she said, "and I was in luck to get the end of the second act the little girl was called out, and, much to her injury, she was obliged to sing a song. The audience was with a bouquet and sent her with a written assurance of sympathy. The scene was then in point of a political moral from the take and the scene was closed. The next day the legislature, where he would look after the interests of the rank and file, the 11th district, and the people of the state, their places—not by violence, oh, no, no French methods for Americans!—but by the force of their own people vote for an amendment to the constitution."

"As we were preparing to leave the theater the magistrate appeared behind the scenes. 'Of course, Mr. Barnes, you will appear against the patros?' he said. 'His prosecution will do much to fortify the issue.' 'That is all very fine,' I retorted satirically. 'But will the Lord provide while we are trying the case? Shall

She dropped into his upstretched arms. We said miraculous sentences! We were by morning on his. One or two nights in a place; sometimes a little longer. No, no! It's necessary to forget it not to forgive. You're here to fortify your issue without us.

"Well, well," he said good-naturedly, "if it's against your interests I have no wish to press the matter." Whereupon he handed her his card and passed. I looked around for Constance, but she had left the hall with Bain-Fraser. Have I been wise in asking him to join the party? I sometimes

# How Red Rose Tea is Grown

TEA is a native plant of Northern India. Transplanted to Ceylon it lost much of its strength and richness, but gained in fragrance and delicacy. That is why Ceylon tea is so long tea.

That is why I blend Indian and Ceylon tea together—that is how the strength and richness, fragrance and delicacy of Red Rose Tea has been secured—that is why Red Rose Tea has that "rich flavor."

### DRIVING THE LAST SPIRIT

The Preacher Shows What the Humble Every Day Worker Can Do For the Poor, Wee and Oppressed of a Nation—No Workmen Are Useless—The "Men of One Talent" Told "To Another One."

St. Louis, Sept. 5.—The Rev. Dr. William, of the First Baptist Church, of this city, preached his sermon for Labor Day, Sept. 5, at 10 o'clock, from the text, "The Parable of the Talents," in the First Baptist Church, of this city.

## PANDORA GRATES

The Pandora Range has been labor-saving for years. It features that is better than any other range. It is labor-saving, it is practical, it is useful.

The grates are triple, that is, there are three instead of two as is usual in common ranges. The grates are geared into each other at the shaker. Because there are three, instead of two wheels gearing into one another, the leverage is twice as great and the effort of turning them is just one-half, so that it is why the labor of shoving them is Pandora Range is just one-half that of common ranges.

Then, when a grate burns out you can remove it in half a minute with a ten cent piece for a screw-driver.

In common ranges it takes an expert mechanic and a big plumber's bill to remove the grates. Because the common ranges must be practically taken apart to get the old grate out. This is one big reason why the Pandora is the best range ever used in a kitchen, and it has dozens of other good points. It is actually good.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC.

Government ownership and administration of the telephone has been urged as a remedy for certain inequities against the telephone service in Canada, which have been the stock-in-trade of certain professional agitators for some time.

European countries where the telephone is operated as a Government monopoly have been pointed out as examples of the method followed by the British Government. They have already reviewed at length the results in Great Britain of triple administration by Government, Municipality and Company. We shall on this review the routine which will fall in several countries of Europe under exclusive Government control.

In France the Government owns and operates both local exchanges and long distance lines. The method adopted by the Government to obtain funds for Telephone development will be considered peculiar by most people in this country and would not meet with the approval of many Canadian municipalities.

The funds required by the Government to buy out the Company which originally equipped the business were loaned from the Savings Bank Department. These moneys do not appear in the State's balance sheet for the telephone service and no interest or sinking fund is provided for, nor is able to very commercial enterprise. In addition to this the subscriber has to buy his own Telephone of a pattern approved by the Government and has to pay for a portion of the cost of installation.

For extending the service into various provincial towns the method of financing was still more unique. The municipalities advanced to the State the sum required for all the stock in the telephone company and for working and maintaining them, the loan to be repaid to the State without interest by instalments taken from the receipts. The State, in turn, paid with regard to the dates at which this peculiar repayment should take place. In this manner the general taxpayer has to bear the cost of the telephone service whether he is a subscriber or not.

The rates charged to subscribers for exchange service are: Paris, \$60.00 per annum; Lyons, \$60.00, and in the smaller towns, \$40.00 and \$30.00. There is no difference in the rates between office and residential service.

In our next Talk we shall review the general results in France of Government administration of this service.

scribe such a remedy. The better  
the physician, the nearer will be  
his prescription to that of Dr.  
Hugo.

Thousands of women in Europe  
have paid for a consultation with  
Dr. Hugo and sent the same  
money. Considering the benefits  
they received from it, it was

now only 50c. for six dozen tablets—enough for an extended treatment.

It is a compound remedy containing all the tonics and alteratives that any woman can need, no matter what her condition. For the sufferer from any weakness down condition, or any weakness peculiar to her sex, it is now acknowledged to be beyond doubt or question the best remedy available to-day. It makes healthy women.

## Being Intelligence

Which Has the Best of It?

Japanese newspapers receive the news items by going into morning, playing like rings around the sun.

The Russian press is also morning and evening, which their country has had to submit to in order to secure peace.

What has most to do with the matter? Look at the result!

British colonial press and the Japanese press, and acknowledge a Japanese protectorate over Corea.

People may well ask how has been the result of the latter? At the time of the Russo-Japanese war, Japan was driven from Manchuria and was driven from the Korean peninsula, the railroad south of Harbin, her lease over Port Arthur and the Liaoning peninsula, and acknowledge a Japanese protectorate over Corea.

Not only in Asia, but in Yankland, the schoolmaster seems to be making his mark.

United States census shows that the proportion of female teachers is increasing. In 1870 there were about 17 per cent of female teachers, while in 1900 the proportion was 25 per cent.

# Why Tea Quality Varies

YOU know how the quality of strawberries from the same patch will sometimes vary from one day to another.

One day sweet, compact, well rounded, well colored, richly flavored—next day it rains, cloudy, following picking is soggy, sour, green, coarsely-flavored.

Tea, also, on account of its volatility of flavor, after picking and during the curing process, is very susceptible to weather changes. A few hours of sunshine or bad weather after picking may make the difference between good and poor tea.

So that while one picking may be first class, the next from the same garden may be very poor.

I select only the pickings which come up to the food standards of Japanese, such as strength in Indian, and delicacy and fragrance in Ceylon tea, and thus that "rich, fruity flavor" of Red Rose Tea is produced and maintained.

Timely Hints Which Will be Appreciated by the Progressive Farmer and His Housekeeper.

### THE WARMED-OVER DINNER.

Most farmers' wives cook too much in warm weather. The hardest work in the world is to persuade women to cook the dinner early in the morning, and then warm it at noon. They are apt to think that the dinner will have a biting rise in the middle of the day to wear out of late dishes to the waiters. A woman truly said she would not look by string beans and peas and carrots for the matter, while waiting for the dish water to leak, or while she was cooking in a hot room. In the morning, because things were better if done in the morning. ## The Pandora Reservoir

The Pandora is the only range with a reservoir stamped in one single piece of steel and enamelled. It is the only reservoir without seams, rivets or places to catch dirt. It has no sharp angles. All the angles are made with rounding curves, and the whole reservoir is beautifully enamelled.

McClary's are the only range makers in Canada, with a plant for making enamelled steel reservoirs, and that is why the Pandora is the only range that has a one-piece reservoir.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC.

During the almost continuous discussion of telephone matters which has been going on in Canada for a number of years, no country has been so frequently referred to as Sweden, and it may be added, regarding no other country have the conditions been so fully comprehended.

Sweden has been the scene of the latest telephone content which has probably ever been witnessed; a contest absolutely unique, inasmuch as it is between the general Government, operating a complete local and long distance system, and a private company operating practically a local system only. The usual conditions are therefore reversed.

The contest had centred about Stockholm, the capital and chief commercial center of the country. The Company charges in Stockholm a flat rate of \$27.00 or a partial service rate of \$21.00 and \$16.00, under which the subscriber pays \$13.50 as installation fee. The Government charges in Stockholm a flat rate just one half of the Company's rate.

With all the prestige of the Government, with the advantage of a general connection by its long distance lines with its exchanges throughout the country, it would naturally be expected that the Government exchange in Stockholm would greatly outnumber its competitor in the number of subscribers. Not so, however. The Company has 34,000 subscribers to its exchange and the Government, but 11,000. The fight has been going on for a number of years with little advantage on either side, but organized administration and good service is seemingly at last giving the Company the victory.

That the Government recognizes that its rate in Stockholm is an artificial one is shown by the fact that it charges a higher rate in its small exchanges where there is no competition than does in Stockholm.

The conditions for service in Canada cannot fairly be compared with conditions in Sweden. The purchasing power of money is more than double in Sweden what it is in this country. Labor, material, everything, is cheaper there. When the fight is over and normal rates and other conditions restored, it will be time enough to draw lessons from that country.

The development of the telephone in Sweden has been enormously exaggerated. It was stated before the Special Committee to be one telephone for 14 of the population of the country, but it is now transpires that this average applied only to Stockholm, which is not as great as the development at Winnipeg and not much higher than Montreal and Toronto.

We have not a great deal to learn even from much-misrepresented Sweden.

have been vexed when using cream of tartar and soda to find their work uneven. If sometimes good, at others the biscuit and cake will be heavy or sour or full of lumps of soda that set the teeth on edge. Flour, eggs and butter wasted. This is because the cream of tartar is adulterated or cannot be used in the proper proportions.

have been vexed when using cream of tartar and soda to find their work uneven. If sometimes good, at others the biscuit and cake will be heavy or sour or full of lumps of soda that set the teeth on edge. Flour, eggs and butter wasted. CAPT. PORT'S VERSION

The story of his surrender to Canada Colonel Whitehead, Sept. 14.—Capt. ## Found Guilty Of Corruption.

### Judges Found at Port Arthur That Aitkens Had Bribe.

On, however, found that no agency for Kennedy was established and dismissed the charges as affecting the Election.—Written Authority Was Left Blank. Polling Place Had Been Left Blank.

Port Arthur, Sept. 14.—When court opened in the election trial yesterday morning, Justice McRae ruled that in the charges against Aitkens, the alleged agent of Kennedy, that no case had been made out against Kennedy, therefore the charges should be dismissed.

It was also found that Aitkens had bribed voters to drive voters, as was also the case of giving Aitkens \$100 for the sum of \$100. The resulting question was, how the election was affected by the charges, and what relation Aitkens could be to the election. There was no written authority for the charges, and the appointment of Aitkens the polling place had been left blank, and was left blank to go to Aitkens.

GOING TO WHITNEY.

After Exchange of Views on Increased Subsidy For Preference.

Toronto, Sept. 14.—Prominent Whittier received a long communication from Premier Doherty of Quebec, on the subject of the readjustment of the tariff. He found that it was an invitation to Mr. Whitney to participate in a similar conference of the tariff. The letter, however, merely asks for an exchange of views on the subject, and will discuss the subject with his colleagues before he joins in the demands of the Province of Quebec for an increased subsidy. It is quite possible that Canada will not participate in the contemplated raid.

DIRECT ISSUE OF MONROE.

Provincial Treasurer Will Discuss of Issue in England.

Toronto, Sept. 14.—The Provincial Treasurer, Hon. A. J. Macdonald, has for the first time, since his departure for England to see the hon. lord, been in the city. He is expected to take up the job and to establish a new policy.

line the actual interior of new Lawrence, which is the limit of the subway. When the Great Trunk Pacific is located through North Ontario, the Legislature will be called upon to furnish the money for the extension of the line to the north end of the city.

Today's Decision.

Meanwhile Newsworthy Decision Is Still Rather Awaits.

London, Sept. 14.—Despatches from Christiansburg represent the situation between Norway and Sweden, as serious as the deteriorated attitude of the Swedish commissioners. Despatches from Stockholm, however, hope that a modest victory will be gained, especially as the Swedish government will be known today's conference in London.

Much interest has been aroused by the presence in London during the last few days of Fridtjof Nansen, the Arctic explorer, who has been invited as the probable first Minister of Norway to Great Britain.

### TIMELY TOPICS.

#### THE TERRIBLE "CURE"

(Detroit Press) He wasn't much in the world. As he wasn't happy to any wealth; his fingers weren't jeweled or pearls; though he also had pretty good health. He couldn't debate or recite, but he never kicked up any fuss. Take him by day or by night, he was always a suitable case.

Jim never could form worth a haire. As he wasn't much good as a clerk the silks did things with a bang. If ever he got down to work he never was known to get mad. As his wife were usually so; as he was one ever allowed to be bad. Just a simple as a suitable case.

We never looked on him as knowing. Or doing a thing that was bright. Now the flowers show him as being a blow!

We wish him by day and by night. For the world of him had many like him.

To laugh when others would fume. As though on one promoted our Jim. He was always a suitable case.

You can take it in any way that you please. You may measure by brains or by gold. Or judge a man's worth by his skill. What's it all when the story is told?

As the man who goes by with a smile. Makes life a bit easier for us. Lives after with an air of nobility. For all miss a suitable case.

The man who grumbled at the price of Easter eggs may now know about the value of full pay.

The suit of straw talk may be for the purpose of getting the public to pay early while the price is high.

The authorities say the act of making pie is fast being lost. Are they expecting to put the nightmare?

Perhaps that is in the price of it is intended to pay for Rockefeller's way.

That sold on the Grand Truck Fair. Just the first time that the fair had turned loose all of the sheep.

St. John, N. H., Telegraph. The number of applicants for the new Brunswick Senate vacante is now said to be forty.

Only 28 more than Thursday.

The French national debt on August 1st last amounted to \$3,960,000,000.

By far the heaviest of our country on the globe.

Many aristocratic ladies in London have said to have gambled over their jewelry at "bachelors" and have had to pay initiation fees.

Few Romanians, it is said, suffered so much from the intense heat of last month as the Pope. He looked pale and exhausted, and whenever one of the Cardinals, before him, pointed for some red summer skirt, came to say goodbye, the Pope said: "How I envy you."

The population of Germany is increasing at the rate of 80,000 a year and it exceeds 60,000,000. Forty years ago Germany and France were nearly equal in population, but now Germany is over 20,000,000 more.

More than anything else these figures explain France's governing attitude in the presence of the Kaiser.

#### THE HUNGARIAN JAP.

(Detroit News) Out on the Pacific coast the hostility which was formerly entertained by the white men toward the Chinese is now being turned against the Japanese, for the simple reason that the little brown man from Nippon has shown himself by far the more formidable of the two in commercial life. Not so much because he toilers for the 24y hours to be well paid for his work, but because he initiates the methods of the American with singular success.

Not only is he an excellent business man, but he is a temperate, intelligent and industrious that is more satisfactory to deal with than any of the other races in this country, although he will defend himself valiantly against aggression.

That is a fact appears as defendant in a police court. He is cleanly and hard working and he keeps his work on the railroads and reaches his own home at last free from any of offensive odor.

#### CONCERN IS OPEN AGAIN.

(Montreal, Sept. 15.)—The wreckage in the Southern Railway bridge over the St. Lawrence river, which was destroyed by fire on Sept. 10, is now being repaired.

## TELEPHONE TALKS

TO TELEPHONE USERS AND THE GENERAL PUBLIC.

The most interesting information reported to the Special Committee on telephone conditions was the evidence regarding the remarkable development which has taken place in Ohio, Indiana, Illinois and some parts of Michigan. The distinctive feature of conditions in these States is that this extraordinary growth is not in the cities and towns but in the rural districts.

The most striking feature is the fact disclosed in evidence, that the extension of the telephone to farmers in those States has been the work of the farmers themselves, and that the development has been very largely in harmony with and encouraged by the affiliated companies of the American Telephone and Telegraph Company, commonly called the American Bell Telephone Company.

It has been so often reiterated or implied that all, or most, of the Farmers' lines in the United States were connected with the systems built up by Independent Companies that it has been generally accepted as a fact. Promoters of Independent companies have included these lines in their statistics for purposes of comparison, and have claimed them as a distinct class of "Independents," very largely connected with the exchanges and long distance lines of the operating Bell Companies.

An official of the American Telephone and Telegraph Company, stated, under oath, that hundreds of thousands of farmers owning, operating and controlling their own lines, especially in the States above referred to, are in large measure connected with the Bell system under mutually satisfactory working arrangements and that the number of such connections are increasing daily.

This official announced that it was the policy of the Bell Companies of the United States to encourage, and, when required, to aid, farmers in providing telephone service for themselves, and in every case where the lines and equipment were suitable, and were non-competitive, to give them connection with the Company's lines and exchanges at the bare cost of operating, and the regular charge for Long Distance tolls.

In the Bell Telephone Company of Canada has been experimenting for the past twenty years with the problem of rural telephony, and through conditions are different here from what they are in the densely populated States of Ohio, Indiana and Illinois, yet we have come practically to the same conclusion as our neighbors—namely, that in largely a work for the farmers themselves. We have already connected with nearly forty such systems, lending them the aid of experienced men, and in other ways assisting in the improvement and maintenance of the lines and instruments provided and maintained by the farmers. We have already given them in not satisfactory.

We shall continue the consideration of this matter.

## Sir Wilfrid Can Wait.

Two years ago Sir Wilfrid Laurier gave a speech in which he said that he would wait. Time would not wait. History would wait. Nothing would wait.

Not long afterwards Sir Wilfrid got an answer to his speech. He found out that time and the Government were waiting for him.

It was when the Grand Trunk Pacific passenger "special" was being run, and Sir Wilfrid was in the car, that he was told that the Government was waiting for him.

The name of Sir Wilfrid's policy is known to Heaven was the danger that the United States might withdraw the bonding privileges. The Premier implied the divine powers in his hands to get a road completed before the winter set in.

It was then that the kind of time was on the wing. Sir Wilfrid was determined to have something to show for his money.

But the country's failure of the road, the kind of time was on the wing. Sir Wilfrid was determined to have something to show for his money.

**THE WORLD OF PRAISE.**

(William J. Longmire.)

It's an easy thing to say it.  
And to say it good and strong,  
And to get it pretty rendered,  
For it helps a class along.  
Oh, of course, you pay him money,  
Doesn't all that he is worth?  
But does money, man and brother,  
Replenish the host of earth?

What's the good of keeping from him  
Any good thing you might say  
That will lift his head of labor  
And is sometimes more to pay?  
Is he worthy of your praise?  
Do you think that he's not fair?  
If you tell him good things  
Are not you on the back?

And even some who think it's praise,  
Not to raise a row and stir,  
And they'll pay an extra dollar  
For the good thing you might say.  
Put it in that that he's worth,  
For it's the kind word and the thought  
That the good thing you might say,  
Of which the good thing is worth.

As when the weary pilgrim,  
Who has been on the hard way,  
Heard to his profit and his losses  
Measured to him day by day.  
Heard the good thing you might say,  
That the good thing you might say,  
Of which the good thing is worth.

Now that the good thing you might say,  
That the good thing you might say,  
Of which the good thing is worth.

a very easy task, compared to the  
one that will fail to be

new future, when they go seeking  
for new teachers. Beyond question  
the poor salaries paid to the aver-  
age school teacher account in a  
large measure for the lack of men  
teachers. The fact is not a whole-  
some one.

The large number of uncolored  
relatives of the late President  
and his family are leaving a trail  
of death and painful sorrow.  
The point of a place has already  
caused a number of accidents and  
deaths and many families are  
calculated because they are be-  
lieved to be away with relatives.  
The fact is that the late President  
was a man who was very much

His death has caused a great deal  
of sorrow and grief to many  
people.

Some admire the maiden quality,  
One who makes short skirts  
Dignified, dainty tall,  
Other much prefer her small.  
I admire the small ones greatly,  
They I like the large and stately,  
I'm not egotist, for I am sure,  
Really, I admire them all.

Some like girls with animation,  
Some as allies in conversation.  
Taste the golden youth caustic  
At a party or a ball.  
Some consider them their winging  
As I said at the beginning.  
Really, I admire them all.

Pair of drags and big or little—  
I don't care a jot or tittle,  
None with me has got the call;  
At the foot of rank I fall.  
The demure and the vivacious,  
The shrew, the nervous, the quiet,  
None is hated, my heart is open—  
"Hire the girls!" I let 'em run.

"Kiss Edward," says the Gophers  
Merrily, "will be gratified to learn  
that the commission get out for  
the purpose of killing as many  
Canadian soldiers as possible."  
It has been used by the Canadian  
Army as a mere money matter.

Neither Indian nor Ceylon tea alone produces the Red Rose flavor

To produce a tea with the "rich fruity flavor" of Red Rose Tea from either Ceylon or Indian alone is impossible.

Neither Indian nor Ceylon in itself possesses the Red Rose flavor, but combined in proper proportions they produce the "rich fruity flavor" that has made Red Rose Tea famous—that makes Red Rose Tea the only tea used in any home where it is once tried.

## DISPUTE OVER BOUNDARY.

Canada Taking Steps Through Quebec to Have a Settlement With Newfoundland Re. Labrador.

Ottawa, Sept. 21.—Pleading that it is doing to have the boundary between the Province of Quebec and Newfoundland's coast strip along the Labrador Peninsula clearly defined, the Quebec Government, with the approval of the Federal authorities, will shortly have done to have the subject brought out in the courts.

It is understood that for some time past the Canadian Government has been sending offers to Newfoundland to have the boundary between the Province of Quebec and Newfoundland's coast strip along the Labrador Peninsula clearly defined, the Quebec Government, with the approval of the Federal authorities, will shortly have done to have the subject brought out in the courts.

Over a year ago Canada proposed to Newfoundland a reference upon the Labrador boundary dispute to the Privy Council, and required, within the time limit, that the province should have been ready to accept the reference. The province, however, never even replied to the question, and the matter has been left to the Privy Council. The dispute is a long one, and the Canadian Government is now taking steps to have the subject brought out in the courts.

### Fatal Accident After a Wedding Near New Hamburg.

Victim of Cannon Revolver or Rifle Bullet is John Hensch—Missile Entered His Heart, and He Instantly Dropped Dead—Shooting Followed Harbottle-Wagener Wedding—Bullets Glean a Mystery.

Brinsford, Sept. 21.—John Hensch, a young man of 21 or 22 years of age, met death Tuesday night at a charivari on the 17th of East Street.

In the afternoon Miss Lavina Wagener was married to Charles Harbottle of Bay City, Mich., at her father's house at that location. In the evening, about 8 o'clock, a number of young men congregated to charivari the newly-married couple, who, it appears, were in the house at the time.

Shortly after the wedding, Hensch, who was a young man of 21 or 22 years of age, was shot in the heart, and he instantly dropped dead. The bullet had entered the young man's body near the heart, and he was found with the wound on his chest.

Bullet's Glean a Mystery. When the bullet came in a mystery, though it will probably be explained by a coroner's inquest, which is likely to be held on Monday.

## THE CRISIS IN HUNGARY

Germany Bank of the Emperor-King Francis.

Hungary Looks To The Slave-Significant Statement of the Emperor-King Francis. Former Emperor Francis Unlikely To Offer Emperor to Consent to Universal Suffrage to Defeat Cession Movement.

Vienna, Sept. 28.—Emperor Francis, though yesterday refused to authorize Baron Propper, the former Hungarian Premier, and Count Goldewitz, the Austro-Hungarian Minister, the last sign of the Emperor are awaited anxiously.

Emperor Francis's failure, according to an Austrian authority close to the Emperor, has been hastened upon by a plan to form a Hungarian coalition by the Emperor's refusal to consent to the demand for universal suffrage, but his Majesty was not willing to accept a universal suffrage.

M. Polanyi, vice-president of the Hungarian Independent party, in an interview in Pressa yesterday, said that the Emperor's refusal to consent to the demand for universal suffrage, he considered with the threat that if Hungary were no longer found support among the Germans, she must look to the disposition of the Slavs.

Dr. Franz, Sept. 28.—There is no doubt that the Emperor's refusal to consent to the demand for universal suffrage, he considered with the threat that if Hungary were no longer found support among the Germans, she must look to the disposition of the Slavs.

## Father Kills Chas. Martin Who Was Attacking His Daughter, With Baseball Bat.

W. Harrington, a Former Newmarket Resident, Commits a Murder in Detroit Which the Law May Justly—Says He Is Sorry He Killed Martin, Though the Latter Got No More Than He Deserved, He Says.

Winnetka, Sept. 28.—At an early hour yesterday morning, at Harrington, Mich., a father killed his daughter's lover, who was charged with having caused the death of Charles Martin, a brother in his house.

According to the story told by witnesses of the affair, Martin and another brother in the house had been drinking heavily, and at midnight Wednesday night Martin attacked the daughter of W. Harrington, aged 18, who was passing through the back yard into the house.

The girl screamed, and Harrington, who was in bed, rushed into the hall, but he was too late to prevent the father from striking his daughter with a baseball bat.

Harrington says he is sorry he killed Martin, but thinks he did it more than he deserved. A coroner jury has been empaneled, but it is probable that the proceedings will be taken against the father.

The new trial was followed by a minor one in the Harrington home, a few hours after the killing. The father, who is an ex-cavalry sergeant, got Harrington off the charge, but the father, who is an ex-cavalry sergeant, got Harrington off the charge, but the father, who is an ex-cavalry sergeant, got Harrington off the charge.
